Following our [temporary relocation](#), the Legislative Reference Library is back in our Capitol space! With thanks to the Texas State Preservation Board for their leadership in the renovation process, we are enjoying new carpet, paint, public computer stations, and updated staff work areas.

Peruse the photos below to see some of the work in-progress and the final results. Come visit! And as always, please continue to call us at (512) 463-1252 and/or email us at LRL.Service@lrl.texas.gov with your reference and research needs.

When a carpet is 20+ years old, it needs replacing! The new carpet is the same pattern, following our [historical room treatment](#), but now the colors are more vivid.

Updated offices and reference desk will help us better serve our patrons.

The final results!
